JANUARY

How can flavor and fragrance formulations help consumers feel better inside and out?

The January issue will focus on functional ingredients and wellness in flavor and fragrance, including adaptogens, nootropics and neutraceuticals. We'll also have a deep dive on functional beverages and how this category continues to grow.

FEBRUARY

Perfumer & Flavorist+ is your destination to learn about the latest technologies in flavor and fragrance. This month's issue focuses on new molecules in F&F and the use of novel technologies, like biotechnology, in formula development.

We also take a look at nutrition FMPs (flavors with modulating properties) and the flavorist's approach to rising health concerns. Plus, our bimonthly Industry Insights column asks experts to weigh in on salt reduction, sugar reduction and challenges and opportunities in flavor modulation.

MARCH

In celebration of National Fragrance Week and International Fragrance Day, the March issue will focus on innovations in fine fragrance.

Readers can learn about the state of the fine fragrance market, meet some emerging faces in the industry and find out about the future of fragrance.

APRIL

We're going all natural for April! This issue focuses on new natural ingredients with unique benefits, extracts and essential oils in flavor and fragrance applications.

The issue will also point a spotlight on heat and spice in F&F as consumer demand continues to drive growth. Plus, our bimonthly Industry Insights column asks experts to weigh in on traceability, ingredient sourcing, logistics, importing and exporting.

MAY

Feeling minty fresh? Perfumer & Flavorist+ puts mint in the spotlight for the May issue. Readers can learn about innovation in oral care as well as new flavor applications for mint varieties.

This issue also looks at applications for botanicals, herbs and spices for the F&F industry and what benefits these ingredients can offer to consumers.

JUNE

Welcome to the 2026 Fragrance Leaders & Newsmakers issue!

We asked key players in the fragrance industry to give some updates on their company's operations and their thoughts on what areas of the industry are driving innovation and growth.

JULY Welcome to the 2026 Flavor Leaders & Newsmakers issue!

We asked key players in the flavor industry to give some updates on their company's operations and their thoughts on what areas of the industry are driving innovation and growth.

AUGUST Thirsty to read about innovation in low and no-alcohol flavors? The August issue of Perfumer & Flavorist+ invites readers to dive into ready-to-drink innovations as well as flavorings for wine, beer and spirits applications.

We also do a pulse check on consumer demands for flavor and fragrance formulae. Plus, our bimonthly Industry Insights column asks experts to weigh in on dairy flavors and dairy alternatives.

SEPTEMBER Perfumer & Flavorist+ shines the spotlight on the air care market and how manufacturers are developing new technologies in both delivery systems and masking and odor elimination.

This issue also looks at current trends in snacks, one of the most dynamic categories in the flavor industry.

OCTOBER Fragrance isn't just about perfumes! The October issue looks at the personal care industry and the role of fragrance in cosmetics. Readers can also learn about sweet flavor applications and trends in the bakery and confectionery categories.

Plus, our bimonthly Industry Insights column asks experts to weigh in on fragrance in personal care products, consumer demand in personal care and wellness trends in F&F.

NOVEMBER Prefer your flavors on the savory side? November's issue of Perfumer & Flavorist+ takes a deep dive on smoke flavor applications and regulatory concerns, as well as the role of flavor modifiers in savory applications.

On the fragrance side, we focus on consumer preferences for home care products and trends in regulations for the home care segment.

DECEMBER December's theme is a reader favorite: citrus! We give our readers an update on the citrus market with special attention to ingredient sourcing and dive into how citrus ingredients can be used in both flavor and fragrance applications.

This issue also features superfood flavors and how to capture that flavor in formula development. Plus, our bimonthly Industry Insights column asks experts to weigh in on artificial intelligence, machine learning and automation and robotics in the F&F industry.

Ingredients

Baguette Bite
Avent Organics
<http://www.aventorganics.com/>
Baguette Bite is a 100% natural flavor that delivers a sweet and fresh, crusty bread note. This unique reaction flavor has the ability to take you back, reliving the sensory experience of fresh breads and pastries as they bake. Baguette Bite can be used in breads, pastries, cakes, cookies, and other baked goods. This product would work well for enhancing bread flavor, creating a bakery atmosphere, and adding a touch of sweetness to other products. Avent Organics provides this material as an Natural, Natural and/or Synthetic.

3-Mercaptohexyl acetate
Avent Organics
<http://www.aventorganics.com/>
Natural 3-Mercaptohexyl acetate (PHEM 4085) CAS # 130654-20-6 delivers a hint of tropical fruit character with rounded notes of grapefruit, passion fruit and guava. Naturally present in citrus and apple fruits, this natural sulfur compound adds freshness and complexity to fruit profiles. At low levels, it enhances mouthfeel and lends juicy notes to mango, kiwi, banana and tropical blends. At higher levels, its green, aliphatic character adds the subtle bread crust notes and roundness, making it useful in savory and sweet flavor applications.

BASF's Mint Portfolio
BASF
<https://www.basf.com/global/en/our-portfolio/mint>
Our mint portfolio captures the essence of mint, delivering exceptional versatility. Thanks to the high purity of our ingredients, these pure ingredients with an enhanced range of options in oral care, vitamin freshness in confectionery, and an increasingly exciting selection in personal care.

05-39500 (+)-6-methyl-2-hydroxy-3-methyl valerate
Perfume Fine Ingredients
<http://www.perfumefineingredients.com/>
This material has a sweet, fruity odor with food notes, and is a fully taste with notes of pineapple and strawberry. It is used in flavor and fragrance applications. Our material is Natural and/or Synthetic.

PREFERRED FILE FORMAT

High-resolution PDF (300 dpi). Ad page templates for InDesign and PDF presets are available. Contact your sales representative.

Professional Tip: *When creating your PDF, be sure to offset your crop marks to the bleed size, otherwise the crop marks will appear within the bleed area and potentially print in the magazine. There is no need to create crop marks for partial ad sizes.*

- **On full-page ads, all vital copy should be no closer than 1/4" to the trim.** Less than 1/4" there is a chance the text could be trimmed off. Allow 1/8" bleed beyond trim, if ad bleeds.
- Any lines must be 1/2 pt. or larger.

OTHER IMPORTANT INFORMATION

- Furnish graphics to size. PDF or EPS formats are preferred. JPEG's are accepted, but must be 300 dpi resolution or higher.
Web graphics will not work.
- Save all files including the graphic elements in CMYK mode unless a spot color is going to be used for output.
- Provide all files at a resolution of 300 dpi or higher.
- Include copies of all fonts and graphic elements used to create the file.
- Use only OpenType fonts.
- Use collect functions found in layout software.
- Do **NOT** send Quark, Corel Draw, Microsoft Word, PowerPoint or Publisher files.

SENDING FILES

If your file is 20 MB or smaller, email it to Ethan Grisham at egrisham@allured.com. Please indicate which magazine and issue the ad is for.
