ELECTRONIC FILES

PREFERRED FILE FORMAT

High-resolution PDF (300 dpi). Ad page templates for InDesign and PDF presets are available. Contact your sales representative.

Professional Tip: When creating your PDF, be sure to offset your crop marks to the bleed size, otherwise the crop marks will appear within the bleed area and potentially print in the magazine. There is no need to create crop marks for partial ad sizes.

- On full-page ads, all vital copy should be no closer than 1/4" to the trim. Less than 1/4" there is a chance the text could be trimmed off. Allow 1/8" bleed beyond trim, if ad bleeds.
- Any lines must be 1/2 pt. or larger.

OTHER IMPORTANT INFORMATION

- Furnish graphics to size. PDF or EPS formats are preferred. JPEG's are accepted, but must be 300 dpi resolution or higher. **Web graphics will not work.**
- Save all files including the graphic elements in CMYK mode unless a spot color is going to be used for output.
- Provide all files at a resolution of 300 dpi or higher.
- Include copies of all fonts and graphic elements used to create the file.
- Use only OpenType fonts.
- Use collect functions found in layout software.
- Do **NOT** send Quark, Corel Draw, Microsoft Word, PowerPoint or Publisher files.

SENDING FILES

If your file is 20 MB or smaller, email it to Ethan Grisham at egrisham@allured.com. Please indicate which magazine and issue the ad is for.

- For larger files, send through free large file transfer online services, such as Dropbox, WeTransfer, TransferBigFiles, etc.
